SAGA INDUSTRIAL PRODUCTS is one of the leading brand name for all types of Abrasives, Cutting & Grinding Tools Suppliers in Ahmedabad, Gujarat & India.

ABRASIVES

An abrasive is a material of a certain hardness and density that allows other materials to be processed by removing the material itself. For example, one of the most common operations that can be done with abrasives is the polishing of a surface or the polishing of the same. They can also be used for many other purposes.

Abrasives are classified according to hardness, grain size and abrasive material. Each of these variables affects the final result. Choosing the right abrasive is essential to achieve the desired result.

Different abrasive instruments correspond to different types of processing, and for this reason there are discs, wheels, wheels, cutters and various files. They differ mainly in shape, size and grain

The Products is widely appreciated by our clients due to its durability, dimensional accuracy, high tolerance, sturdy construction, low maintenance and high performance. Backed by our modern infrastructure, we have maintained a rapid rate of production to fulfill the bulk requirements of our clients.

SAGA INDUSTRIAL PRODUCTS is one of the leading brand name for all types of Adhesives tapes Suppliers in Ahmedabad, Gujarat & India.

ADHESIVE TAPES

We are dedicated to offering premium-quality products at economical prices using modern technologies to practice most efficiently. Our product range involves Double Sided Tape, Masking Tape, Electrical Insulation Tape, Box Packing Tape, Aluminum Tape, and Self-Adhesive in India. Our erudite and skilled professionals do thorough research in the market to produce these tapes under the set industry standards.

We provide different kinds of Tape, which are used as Laying Pipelines, Fiber Optic Cable, Packaging Cartons, Electric Cable, and more. We deliver end-to-end Tape solutions to our customers across India.

The adhesive is the main part of its usefulness because it permits the tape to be easily eliminated without leaving residue or hurting the floor to which it is applied. It has the power to resist up to 80 °C temperature.

These Adhesive tapes are used in automotive & business machinery, paint shop refrigeration, and other places for common purpose application. Masking tapes are recommended for a wide range of light & packing bundling operations. They are used to temporarily join name plate, inspection stickers, and work orders during manufacturing operations. For painting, bumper, design, and other alike applications.
